## EDUCATION AND CERTIFICATIONS

02

### A. Da Schio Institute

Informatics and International Business Management

### Ironhack Barcelona

Javascript based Web Development

## SUMMARY

03

Dynamic Full Stack Engineer with over 7 years of experience in software engineering, specializing in JavaScript, Python, and most modern frameworks. Proven track record in delivering scalable, user-focused solutions across remote and hybrid environments. Skilled in front-end and back-end development and cloud platforms, with a background in AI project management and team leadership.

## EXPERIENCE

04

2024.06 - Present

### Sailogy - 5 Sesons Yachting

- Develop and maintain full-stack applications for an online yacht charter platform using Python, Django, React.js and Typescript.
- Implement responsive UI designs with Alpine.js and Htmx, enhancing user experience for sailing holiday bookings.
- Collaborate with cross-functional teams to integrate new technologies and optimize hybrid workflows.

2023.05 - 2024.06

### RADiCAL Motion

- Built AI-powered 3D animation interfaces using React.js, Three.js, and NestJS, improving real-time rendering performance.
- Designed scalable front-end systems with Next.js, earning UI endorsements for intuitive user experiences.
- Leveraged remote collaboration tools to deliver features for a globally distributed team.

2022.09 - 2023.05

### MonoM

- Engineered front-end solutions with React.js and modern CSS, streamlining user interactions for SaaS products.
- Enhanced code quality through TypeScript adoption and rigorous testing practices.
- Supported agile development cycles, delivering features on time in a fast-paced startup environment.

2021.05 - 2022.09

### MobyFox, Barcelona, Spain

- Developed full-stack web and mobile applications using React.js, Node.js, and MongoDB, integrating GCP services.
- Optimized CSS frameworks and HTML5 for responsive, high-performance web experiences.
- Managed end-to-end DevOps processes, reducing deployment and facilitating versions control.

2017.06 - 2021.02

### Intel Corporation

- Led AI and image recognition project evaluations, securing grants and cloud resources for innovative startups and PhD.
- Organized workshops, hackathons, and conferences, fostering collaboration among 50+ tech teams annually.
- Negotiated sponsorship and managed accounts, enhancing Intel's AI ecosystem outreach.

## SKILLS

04

JavaScript (React.js, Node.js, Next.js)

Python (Django)      Typescript

GCP, AWS      Figma

Git, Github, Gitlab      HTMX

MongoDB, SQL      React Native, Flutter

## LANGUAGES

05

English      Native
